Orbital paths and first passage

Matched 1 eV launch · r0=1 mm · azimuth 45° · phase 0° · 250 V

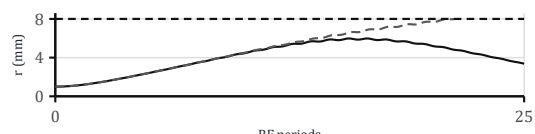

A Matched x–y geometry; aperture is dashed

B Radius history

C Radius history

● Rotating · survived to 1000 RF

■ Standing · first passage 21.31 RF

Retained status is right-censored at 1000 RF; the standing trajectory terminates at r=8 mm.
